

# Silicon Arrays Working Group breakout session

**7:00 – 8:30pm Friday August 12**

Jordan Hall Rm 325

*Low Energy Community Meeting, University of Notre Dame*

- |  |                  |
|--|------------------|
| 19:00 – 19:08  | Steve Pain       |
| <i>Welcome and overview</i>                                |                  |
| 19:08 – 19:16  | Chris Wrede      |
| <i>Decay measurements at FRIB</i>                          |                  |
| 19:16 – 19:24  | Daniel McNeel    |
| <i>HELIOS silicon upgrade</i>                              |                  |
| 19:24 – 19:32  | Jack Winkelbauer |
| <i>APOLLO</i>  |                  |
| 19:32 – 19:40  | Jeff Blackmon    |
| <i>ANASEN</i>  |                  |
| 19:40 – 19:48  | Kelly Chipps     |
| <i>sORRUBA + JENSA for astrophysics</i>                    |                  |
| 19:48 – 19:54  | Dennis Muecher   |
| <i>Si tracking array</i>                                   |                  |
| 19:54 – 20:04  | Steve Pain       |
| <i>Silicon + Gamma-ray setups (GRETINA+HAGRiD+Clarion)</i> |                  |
| 20:04 – 20:12  | Lee Sobotka      |
| <i>Update on WashU ASICs</i>                               |                  |
